PROFESSIONAL SUMMARY

Electronics Engineering graduate with a strong interest in coding, web development, software, and emerging technologies. Hands-on experience building practical projects involving Python, web development, Arduino-based systems, and electronics. Completed internships in web development and technical support, gaining experience in problem-solving, troubleshooting, and working with technology. Interested in opportunities where I can combine my electronics foundation with my growing skills in software and web development while continuing to learn and build practical solutions.

EDUCATION

Bachelor of Science (B.Sc.) | 2025

R.K. Gupta Memorial Institute of Technology, Sikandra, Agra

Diploma in Electronics Engineering | 2021 – 2024

Dayalbagh Educational Institute (Deemed University), Agra

Intermediate – U.P. Board | 2021

Shiri Ishwari Prasad Inter College, Agra

High School – U.P. Board | 2019

Sant Dayanand Inter College, Sewla Jat, Agra

TECHNICAL SKILLS

Programming: Python, C, Java

Web Development: HTML, CSS, JavaScript

Electronics: Basic Electronics, Arduino, Microcontrollers, Circuit Fundamentals

Tools & Software: Microsoft Office, Advanced Excel

Other: Technical Troubleshooting, Problem Solving, Computer Skills

PROJECTS

Sidney – Voice-Based Desktop Assistant | *Python | Speech Recognition | NLP*

- Developed a voice-based desktop assistant using Python and speech recognition.
- Implemented voice interaction and intent-based responses for different user requests.
- Designed functionality for opening applications, providing information, taking screenshots, setting reminders, and performing web searches.
- Applied basic natural language processing and machine-learning concepts for intent classification.

Personal Portfolio Website | *HTML | CSS | JavaScript*

- Designed and developed a personal portfolio website to showcase education, skills, projects, and professional experience.
- Focused on creating a structured and accessible web presence for recruiters and professional networking.
- Applied front-end development concepts using HTML, CSS, and JavaScript.

Li-Fi Communication System | *Arduino | C | LED | LDR | Keypad*

- Developed an Arduino-based Li-Fi communication system using an LED transmitter and LDR receiver.
- Integrated an LED 7-segment display and keypad for data input and output.
- Worked on circuit connections and Arduino programming for the communication system.
- Gained practical understanding of microcontrollers, communication concepts, and hardware integration.

220V Regulated Power Supply | *Electronics | Voltage Regulation | Rectification*

- Built a regulated power supply that converts AC input into stable DC output.
- Used rectification, filtering, and voltage regulation stages.
- Gained practical understanding of power-supply circuits and voltage regulation.

Water Level Indicator Using IC 555 | *IC 555 | Sensors | Buzzer*

- Developed a water-level detection system using an IC 555 timer and water-sensing probes.
- Designed the circuit to detect water levels and activate an indication system.
- Worked with the 555 timer in astable operation and generated a square-wave output.

EXPERIENCE

Web Development Intern — Aframe Technologies

Remote | June 2024 – July 2024

- Worked on web development tasks using HTML, CSS, and JavaScript.

- Developed and launched a personal portfolio website during the internship.
- Gained practical experience in front-end development and website structuring.
- Improved problem-solving and technical skills through hands-on development work.

Electrical Engineering Intern — Samsung Service Centre

Agra | June 2023 – August 2023

- Assisted with technical troubleshooting and maintenance-related activities.
- Gained practical exposure to electrical systems and technical support.
- Developed problem-solving skills through diagnosing and addressing technical issues.
- Worked in a practical service environment and gained experience with technical processes.

CERTIFICATIONS

- AI Tools Workshop — Be10x
- Web Developer Internship — Aframe Technologies, July 2024
- Introduction to Ethical Hacking — Great Learning Academy, April 2024
- Introduction to Python — Dayalbagh Educational Institute, March 2024
- Basic and Advanced Excel — Dayalbagh Educational Institute, January 2024

INTERESTS & HOBBIES

Interests: Coding • Web Development • Artificial Intelligence • Emerging Technologies • Electronics • Robotics & Automation

Hobbies: Chess • Travel • Sketching • Cricket • Cubing
